COLLECTIBLE DESIGN

2023

ABOUT

Jan Ernst is a multidisciplinary creative based in Cape Town, who specializes in collectible design.

He holds a Masters degree in Architecture from Nelson Mandela University in South Africa and Ramon Llull in Spain. After working in corporate architecture, he co-founded Studio AN, a creative platform for architecture and interior design.

Through his ceramic designs he aims to create conversation driven by organic forms and awkward negative spaces, while bringing people together with the narrative quality of the work.

DESIGN

The work is influenced by his fascination with natural structures such as corals, fungi, and geological formations. The designs have evolved into functional art and sculptural furniture expressed mainly through ceramics and gypsum.

Jan Ernst's work takes on an experimental approach, as he prefers making bespoke pieces by hand. His organic design stems from his abstract understanding of form and space and deep connection with the natural world.
